EDUCATION

- Vellore Institute of Technology Bhopal** Bhopal, India
Bachelor of Technology in Computer Science and Engineering
• GPA: 8.53/10 Sep. 2021 – 2025

SKILLS

- Technical Skills:** Next.js, React Native, JavaScript, HTML/CSS, MongoDB, Express.js, Node.js, Redux, SQL, Docker, Git

EXPERIENCE

Associate Software Developer

NOVA
Chennai

Jun. 2024 – Present

Technologies used: React, JavaScript, Redux, HTML, CSS

- Designed and implemented user-centric frontend experiences for the restaurant management system, solving real-life operational challenges for quick-serve restaurants, bars, cafes, and full-service establishments.
- Built and optimized interactive interfaces for table management, kitchen dashboards, and real-time reporting to improve service speed and order accuracy.
- Worked on enterprise-level setup of the restaurant management system, ensuring scalability and robustness.
- Collaborated closely with backend and product teams to streamline workflows and enhance guest satisfaction for thousands of daily users.

Software Development Engineer Intern

Neuradynamics.ai
Remote

Nov. 2023 – May 2024

Technologies used: React, FastAPI, AWS EC2, S3, CI/CD, NLP

- Served as a full-stack developer for international client projects, building and deploying web applications using React and FastAPI, with CI/CD pipelines reducing deployment time by 35%.
- Utilized AWS (EC2, S3) for scalable infrastructure and developed NLP-driven SaaS features, optimizing performance by 20% and enhancing user interaction with generative AI.
- Collaborated with cross-functional teams to deliver innovative solutions, ensuring alignment with client requirements and industry best practices.

PROJECTS

GNB Edge - Fleet Management System | *React, React Native, Node.js, Express.js, MongoDB, Python (gRPC)*

- Developed an enterprise fleet management platform (GNB Edge) with a Node.js core supporting mobile and web clients for real-time operations.
- Engineered a unified backend with atomic single-submission transactions to ensure consistent, immutable fleet records across all services.
- Designed scalable microservice APIs (gRPC/REST) in Node.js and Python to orchestrate telemetry, alerts, and document workflows.
- Implemented a Whatsapp/webhook alert pipeline for proactive incident notifications to stakeholders.
- Deployed Link: <https://app.gnbedge.in/>

AI Interview Mocking | *Next.js, Node.js, Express.js, MySQL, OpenAI*

- Designed a web application for practicing job interviews with AI-powered interviewers, delivering detailed feedback, and documenting performance metrics for 100+ mock interviews.
- Enhanced user experience by 40% through customized interview settings, AI integration, and achieving a 25% increase in user satisfaction ratings based on post-interview surveys.
- Engineered an adaptive question-generation system for over 100 users performing practice interviews, leading to more relevant scenarios and achieving a documented increase in overall preparedness by 30%.
- GitHub: github.com/Amitansu-priyadarsan/AI-Interview-mocker

ADDITIONAL INFORMATION

- Languages:** English (Professional Working Proficiency), Odia (Native), Hindi (Fluent)
- Interests:** Full-Stack Development, Playing chess UI/UX Design,
- Leadership & Achievements:** Chess Captain of VIT Bhopal and National-Level Chess Player, representing the college in inter-university and national competitions.
